Official Review of Submission567 by Reviewer h7Qk

Paper Summary:
The paper introduces Dataset Q and Method M for a placeholder NLP task.

Summary Of Strengths:
Clear motivation. The dataset could be useful to the community.

Summary Of Weaknesses:
1. The annotation agreement is not reported, which raises doubts about data quality.
2. The baselines are outdated; recent models from Line of Work Z should be included.

Comments Suggestions And Typos:
Line 23: "teh" should be "the". Consider citing Paper Z1 in the related work.

Confidence: 3 = Pretty sure, but there's a chance I missed something.
